

Residential, Commercial and Industrial Electrical Systems: Equipment and selection, 2008, Hemant Joshi, 0070620962, 9780070620964, Tata McGraw-Hill Education, 2008

Residential, Commercial and Industrial Electrical Systems is a comprehensive coverage on every aspect of design, installation, testing and commissioning of electrical systems for residential, commercial and industrial buildings. This book would serve as a ready reference for electrical engineers as well as bridge the gap between theory and practice, for students and academicians, alike. Volume 1: Equipment and Selection provides its readers a detailed description of various equipment typically used in electrical distribution system. Along with the working principle and procurement methods, the book discusses selection criteria of different electrical equipment
